Simplified Kundalini Yoga (SKY) REPORT 2014-15

Yoga is an ancient form of exercise which evolved thousands of years back in the Indian society and is being practiced continuously since then. It includes various forms of exercises to keep a person in good shape and to get rid of various forms of diseases and inabilities. It is also considered as a strong method for meditation which helps in relaxation of mind and body. Yogasana are known to develop vigor, flexibility and confidence. These are among the numerous benefits of yoga and games Increases in self-esteem and mental alertness. It teaches the children life skills like teamwork, leadership, patience.

Department of Physics conducted a course on SKY –entitled ‘Smart memory and life management’ for the benefit of the students. It was conducted as three hour sessions on 12 days. 34 students from UG and PG classes participated in the training program. Dr. Simon Augustine was the co-ordinator of the program.

Matrices and Magic Squares: Entering Matrices, sum, transpose, and diag, Matrix Manipulation, The magic function, Generating Matrices

Expressions: Variables, Numbers, Matrix Operators, Array Operators, Functions, Examples of Expressions

Matrix and Array operations: Arithmetic operations, Relational operations, Logical operations, Elementary math functions, Matrix functions

Indexing: Subscripts, The colon operator, Concatenation, Deleting rows and columns, Scalar expansion, Logical subscripting, The find function

Module 3

(5 Hours)

Programming

Conditional control - if, else, switch

Loop control – for, while, continue, break

Module 4

(5 Hours)

Graphics

Basic plotting functions: Creating a plot, plotting multiple data sets in one graph, Specifying line styles and colors, Plotting lines and markers, Displaying multiple plots in one figure, Controlling the axes, Adding axis labels and titles, Saving figures, Saving workspace data
